

# Mia and me - Step-by-step mobile instructions

PAGE 1

## What you need:

- White cardboard (A4 sheets, a bit thicker so that the mobile is sturdy)
- White paper (A4)
- Craft scissors
- Glue stick
- Adhesive tape
- Twine
- Hole punch or pointed object

## How it works:

1. Print out the instructions in colour
2. Take the white cardboard and glue the front sides completely using the glue stick
3. Carefully cut out the front sides from the cardboard

## PAGE 2

4. Now carefully cut out the reverse sides from the paper
5. Glue the reverse sides, which you just have cut out, on the back sides of the oval cardboard pieces. You should now have an image on both sides
6. Arrange the pieces on the table the way you want the mobile to hang in the air when it is finished
7. Take the hole punch or a pointed object and make holes where the black marks are. You don't need to make a hole into the bottom side of the 3 lowermost pieces
8. Next you have to thread the pieces together to put together the mobile. To do this, cut 9 pieces of twine at approx. 15 cm each. To attach the whole mobile with the top piece on the ceiling or your bed, cut off another piece of twine at approx. 40 cm long
9. Tie the single pieces together and your Mia and me mobile is complete!!!
